Roger,

Good meeting you in person today. Per our conversation, here is the pertinent section of the 2010 EPA RCRA Compliance Monitoring Strategy.

### **Scope of the Subtitle C Compliance Monitoring Program**

The RCRA Subtitle C program encompasses compliance monitoring for a variety of hazardous waste operations, i.e.:

- Treatment, Storage, and Disposal Facilities;
  - Generators -- Large Quantity Generators (LQGs), Small Quantity Generators (SQGs), and Conditionally-Exempt Small Quantity Generators (CESQGs);
  - Transporters; and
  - Other RCRA Handlers.
- As explained fully in the sections below, RCRA imposes inspection requirements for TSDFs – and OECA’s *NPMG* states corresponding expectations for those, and other, facilities. In summary:
- The statute mandates minimum inspection frequencies for TSDFs: annually for government-owned or operated TSDFs, and biennially for non-government TSDFs. OECA has established corresponding annual commitments.<sup>24</sup>
  - OECA has set minimum annual inspection expectations for LQGs: at least 20 percent of the universe.<sup>25</sup>
  - States may elect to inspect SQG, CESQG, Transporter, Non-notifier, and/or Other RCRA Handler facilities, in lieu of inspecting 20 percent of their LQG universe, under OECA’s policy for State Alternative Plans (or “State Flexibility Plans”).<sup>26, 27</sup>

The foregoing inspections are covered by OECA’s ACS process,<sup>28</sup> and most of these inspection expectations have a dedicated BAS reporting code (e.g., RCRA01).

Let me know if you have any questions concerning the above.

Excellent!  
Thanks John!

Do we have any info from Superfund folks on their activities on the 710 corridor identified sites?  
As we move forward, our goal is to identify sites that have not yet been addressed by both EPA Enforcement and Superfund  
I look forward to meeting you this week to discuss further.  
Thanks,  
Roger

**Subject:** FW: I 710 Corridor Facilities of Interest and EnviroStor PA/SI Data in 710 Area

Roger, we're looking forward to meeting with you in the near future and picking up the discussion re the I-710 corridor. John is rounding up information on past inspections. The attached and detailed spreadsheet represents the Region's enforcement actions in the corridor. All media are covered.

Please share with others at DTSC who will be part of the conversation.
